## **Covid Roller Shields** - Made to measure – price subject to survey

The Covid Roller Shields are made to measure and price based on survey available in 3-5 working days. They come with a Back Bar and Side Guide wires as standard: Protect your customers and employees from the spread of Covid-19 with this transparent roller blind.

Perfect for use on shop counter tops or between workers to stop the spread of aerosols from coughing and sneezing. This can fit directly to a suspended ceiling grids with simple clips, and rigid back bar. This blind is chain operated (1000mm chrome chain supplied as standard). Made from clear Fire Retardant PVC fabric.

COVID 19 PRICE LIST

## **NON CONTACT THERMOMETERS – price on quantity -on application.**

This non-invasive thermometer provides an effective and convenient method of measuring the temperature of sick patients with possible Covid-19 as the user can stay a safe distance away from the patient.

The thermometer can be pointed at the patient's forehead and will gauge a temperature between 25c to 35c from 5cm to 8cm away. A popular thermometer as it avoids contact with the skin and contamination between patients.

## **Covid Hangerscreen- made to measure - price subject to survey**

A lightweight and simple transparent sneeze and cough screen to protect staff and customers which can be fixed by magnets or sticky pads to false and lowered ceilings. The screen is held taut by wire side guiding and can be put up in a matter of seconds as no drilling is required.

Ideal for corporate and commercial environments as the wire side guiding system offers a barely-noticeable solution making for a stylish and neat safety feature.
